7th November 2013

Dear Parents,

As part of our Sharing the Ocean unit, we have been learning about animals that live in the ocean. We will be completing a project in class on an animal your child has chosen. Please help your child to **choose one animal** from the list and to find the **answers for the animal questions** using books or the internet. You may like to bring some photos or extra information to school. Remember the more facts you research with your child, the more they will be able to include in their project!

Thank you for enjoying this educational adventure with us! ☺

Ocean Animals

Whale, dolphin, shark, seals, seahorse, starfish, turtle, clownfish, stingray, swordfish, jellyfish, octopus, puffer fish, dugong, hermit crabs.

Animal Questions

Animal's name:

Where in the world does it live?

What is its home like?

What color is it?

Body covering? (fur, scales, blubber)

What does it eat?

What is the baby called?
