

It's hard to believe that we are in October already! The students in grade 2 have returned with lots of excitement and are anxious to learn new things already. In class we have been practicing our new routines and have established our essential agreements which we agreed to follow until the end of this academic year.

Grade 2 has been busy inquiring about communities. Children have identified their responsibilities as a member of a community and are now busy finding out about our school and wider community.

Children have been interviewing members of our school, finding out their jobs and understanding how we all have an important role.

We have assembly every morning. We sing the National Anthem, read the Qur'an and learn something new every day.

During the first week of school, Grade 1 and Grade 4 paired up for a reading session! All Grade 4 classes came down to visit Grade 1 students. The Grade 1s found a couple of books that they wanted the Grade 4 students to read to them and then the students all found partners. The Grade 1s were so excited to have the “big kids” read to them! It was amazing to see how well the Grade 4s could read and help the Grade 1s engage in the story. The Grade 4s were asking great questions as they read too! Grade 1 is really looking forward to the next time we have our buddies come down and read to us!

Our Grade 3 students proved to be open minded and cooperative while making ‘Pin Wheels for Peace’ during Ms. Brenda’s art lessons. The objective of this project was to create awareness of the importance of peace around the world. World Peace day was on 21<sup>st</sup> September and the students contributed to this important event by making pin wheels.

The pin wheels are placed all around the school to show everybody that Emirates National School cares. The students really enjoyed the project and it gave them an awareness of the importance of world peace.
